

April 16 - 18: Leadership During COVID-19

"Leadership is a way of thinking, a way of acting and, most importantly a way of communicating" - Simon Sinek

The outbreak of a new coronavirus, the SARS-CoV-2, has led to a pandemic and a public health emergency **that will definitely change our history**. These times of disruption and disorganization pose extensive challenges, and **the value of**

leadership is more significant and critical than ever. On April 17 and 18, AIS Channel will broadcast an online congress divided into 2 parts, focusing on **the crucial need for leadership**. This event will connect leaders from different organizations, such as surgical societies, hospitals, universities, and scientific journals.

Please distribute as appropriate to your internal and external stakeholders who you may believe have interest in.

TWO CONSECUTIVE SESSIONS! PART I

LEADERSHIP DURING COVID-19
